Agritourism

Kansas Agritourism--where tourism meets agriculture!

Agritourism is a unique experience that combines traditional agriculture with tourism. Kansas agricultural producers are realizing the benefits of tailoring their operations to tourism. Tourists enjoy visiting Kansas farms, ranches and wineries and participating in the rural lifestyle. These activities provide lifelong memories for tourists and additional revenue for Kansas farmers who host them.

Agritourism attracts tourists who participate in activities on a working farm, ranch or at a lodge, outfitter, winery or other agricultural operation. These activities might include outdoor recreation, activities, educational experiences or opportunities to shop, dine or stay in Kansas, all while supporting Kansas agricultural producers. These activities help to sustain the rural way of life and keep more producers on our Kansas lands.

Today is Kansas Day! We celebrate Kansas Day annually on January 29 to commemorate our 1861 admission to the Union! It was first celebrated in 1877 in Paola, Kansas! While most states might not recognize their "birthday", Kansas celebrates in a big way with school field trips, special projects, visits to the statehouse in Topeka, Kansas, performances of the state song "Home on the Range", and lots of celebrations! Happy birthday Kansas!

Any meat not cut into steaks or roasts is made into ground beef and usually accounts for about 60% of the hanging weight.

Animal Facts: Rabbits!
Rabbits can purr! Just like cats do!
Many rabbits love to eat dandelions and bananas for treats.
Rabbits can jump 36-inches or even higher.
A doe rabbit can produce litters of up to 10 babies every 31 days!

HOW MANY GALLONS OF MILK DOES A COW PRODUCE IN A DAY?
HOW MANY STOMACHS DOES A COW HAVE ?
HOW MANY HOURS A DAY DOES A COW SPEND EATING AND CHEWING?
HOW MANY "SQUIRTS" DOES IT TAKE TO MAKE A GALLON OF

ANIMAL FACTS
ALL THAT BACTERIA IN OUR RUMEN MAKE CARBON DIOXIDE AND METHANE GAS. WE BURP ABOUT 1,000 LITRES OF GASES EVERY DAY. THAT'S ABOUT THE SAME VOLUME AS SIX BATHTUBS.
COWS ARE NOT BIG SLEEPERS, BUT WE LIKE TO LAY DOWN AND REST. WHILE WE'RE DOING THIS, WE BURP UP A BIG BALL OF FOOD AND CHEW IT INTO SMALLER PIECES. FARMERS CALL THIS CHEWING THE CUD.
EVERY DAY WE EAT UP TO 12 TIMES AND REST ON OUR BEDS FOR AT LEAST 13 HOURS.
NOT ONLY DO WE NEED LOTS OF FOOD BUT WE NEED EVEN MORE WATER.
Some girls here drink up to
150 LITRES
of fresh, clean water every day, especially in the summer.
FOOD MOVES THROUGH COWS THE SAME WAY IT MOVES THROUGH PEOPLE.
THE ESOPHAGUS AND INTESTINES USE A PINCH AND PUSH PROCESS CALLED
PERISTALSIS
(PAIR-EH-STALL-SUSS).
ECODAIRY FACT
We eat local. 85% of our forage is grown on the EcoDairy farm within 300 metres of our barn.

Your Networking Association for Farm Direct Marketing and Agritourism

home | membership | conventions | events | resources | about us

Welcome!

"NAFDMA was new to my farm last year ...we've grown because of our membership"
~Jeff, Blooms & Berries Farm Market

North American Farmers' Direct Marketing Association is a Membership Association dedicated to nurturing the farm direct marketing industry. Its actions are driven by those whose daily lives are dedicated to this way of life. Its members support their family farms by selling millions of dollars worth of farm-grown produce directly to consumers at farm stands, farmers markets, pick-your-own farms, consumer-supported agriculture, agritourism venues, and other ever-growing innovations in direct producer-to-consumer agricultural marketing methods. Please browse this site for more information about who we are and what we do.
